## DARIAH-EU's Virtual Competency Center for Research and Education

This poster was created by:  
Christof Schöch, Costis Dallas,  
Matthew Munson, Toma  
Tasovac, Erik Champion,  
Susan Schreibman, Agiatis  
Benardou, Marianne Ping  
Huang, Petra Links, and  
Walter Scholger.

The research and activities  
described here are being  
funded by the national  
funding agencies of the  
countries involved.

Follow us:  
**@dariah.eu**

... aims to develop an  
evidence-based foundation to  
ensure fitness for purpose of  
planned digital infrastructures  
for scholarly research.

### Understanding Research Practices

survey of scholarly practice  
knowledge base

... aims to provide training  
programs for researchers  
in the methods, tools, and  
approaches needed to  
engage with the digital  
environment, including  
DARIAH services, tools,  
and content.

### Running Training Programs

workshops  
summer schools  
teaching materials

... will produce a VRE  
Blueprint that can be used to  
guide the conversations  
between humanities scholars  
who wish to develop a VRE  
and the developers who will  
help them realize this goal.

### Analyzing Virtual Research Environments

VRE needs analysis  
VRE blueprint

... and listening to  
your needs as a  
researcher

You are welcome to  
contact any of us about  
the needs of your  
discipline, your project or  
your current career phase.

### Fostering Community Engagement

expert meetings  
publication series  
dialogue DH/H

... engages with scholars  
about digital humanities,  
explaining the added  
value digital data and  
methods can provide  
while fostering exchange  
and cooperation within  
scholarly communities.

The VCC is led by  
**Susan Schreibman**  
(Trinity College  
Dublin, Ireland)  
and **Erik Champion**  
/ **Marianne Ping Huang**  
(DIGHUMLAB, Denmark).

Greece  
Ireland  
Lithuania  
The Netherlands  
Slovenia  
United Kingdom

The *Virtual Competency Center for Research and Education* is one of four contact points to DARIAH, the Digital Research Infrastructure for the Arts in Humanities.

DARIAH is a large-scale, long-term, pan-European endeavor aiming to enhance and support digitally-enabled research across the arts and humanities. DARIAH aims to develop and maintain an infrastructure in support of digitally-enabled research practices. It will explore and apply digital methods and tools to enable new research, improve research opportunities through linking distributed digital source materials and tools, and exchange expertise, methodologies and practices across domains and disciplines.
