Proposed Bachelor of Science in Media, Culture, and Communications Studies (MCCS)

A three-year interdisciplinary major aimed at equipping students with the cultural-technological skills required to succeed in the competitive contemporary fields of digital information, data analytics, and screen media. An MCCS degree is not a “traditional” humanities degree; rather, it is designed to provide students interested in the humanities and social sciences with the digital skills required to establish rewarding careers within today’s technology-driven society.

- Media, Culture, and Communications Studies (MCCS) Minor
  (Approved Fall 2012)

Co-Op

Digital Humanities Speaker Series

Atlas of Digital Humanities

An online collaborative directory of people, projects, institutions, organizations, and events related to the world of digital humanities.

Anyone can join, create and update a user profile, share information about DH communities and projects, and export database content via XLS spreadsheets.
