EMP©WERING the Humanities

Proposed Bachelor of Science in Media, Culture, and Communications Studies (MCCS)

A three-year interdisciplinary major aimed at equipping students with the cultural-technological skills required to succeed in the competitive contemporary fields of digital information, data analytics, and screen media. An MCCS degree is not a "traditional" humanities degree: rather, it is designed to provide students interested in the humanities and social sciences with the digital skills required to establish rewarding careers within today's technology-driven society.

> Media, Culture, and Communications Studies (MCCS) Minor (Approved Fall 2012)

Co-Op

Atlas of Digital Humanities

An online collaborative directory of people, projects. institutions, organizations, and events related to the world of digital humanities.

Anyone can join, create and update a user profile, share information about DH communities and projects, and export database content via XLS spreadsheets.
